

AVI CYBERKEY 128

The AVI Cyberkey 128 is a multi-functional and fully programmable keyboard. Designed to integrate and control a variety of third party devices such as Matrix switchers, DVR's, PTZ's and High-Speed Domes seamlessly. Locally developed and manufactured, it is robustly constructed from powder coated steel and includes surge protection on the data ports. The easy-to-navigate menu structure includes 'cell-phone' style alphanumeric text editing.

FEATURES

- Dual comm ports.
- 3-D variable speed joystick.
- Complete DVR setup, record and playback control.
- Advanced direct access menu structure.
- Cell-phone alphanumeric text editing.
- Programmable titling, sequencing and vector scans.
- Programmable alarm management.
- Programmable soft key allocations.
- Multiple simultaneous equipment control.
- Supports most 3rd party protocols.

Electrical Specifications

- Power: 9-12V DC @ 500mA
- Power Consumption: 6W
- Data Ports: RS485 (Port 1)
RS232, RS485 or
USB (Port 2)
- Baud Rate: 1200 – 56600 Baud
- Cable Requirements: AWG 22 Twisted Pair (Shielded)
- Operational Distances: RS485 – 1200m
RS232 – 20m
USB – 10m

Mechanical Specifications

- Mounting: Desk Top
- Construction: Powder Coated Steel
- Finish: Sand Paper Black Epoxy
- Weight: 1.5 Kg

Environmental Specifications

- Ambient Temperature: -5°C to 55°C
- Humidity: 5%-90% (non- condensing)
