

AVI VLA101

The AVI VLA101 is an end-of-line Video Line Amplifier, specially designed to boost and correct weak video signals.

FEATURES

- Convenient power supply input 20 – 25V AC.
- Allows adjustment of composite video signal level (nominal 1V p-p).
- Provides HF Compensation for long cable runs.
- Robust and easily installed metal chassis.
- 2 Year limited warrantee.

AVAILABLE MODELS			
MODEL	INPUTS	OUTPUTS	CHANNELS
AVI VLA 101	1	1	1
AVI VLA 1601	1	1	16
AVI VLA 3201	1	1	32
AVI VLA 4801	1	1	48

Electrical Specifications

- Video: Input & Output: 75Ohm BNC
Gain: +12dB (Max)
HF Gain: +12dB (Min)
Bandwidth: ± 1 dB to 12MHz
- Supply: 20 – 25V AC
- Power: 3.6 Watts

Environmental Specifications

- Ambient Temperature: -5°C to 55°C
- Humidity: 5%-90% (non- condensing)

Mechanical Specifications

- Mounting: Surface Mount (Key Slots)
- Construction: Steel Chassis
- Finish: Sand Paper Black Epoxy
- Weight: 0.1 Kg

Specifications are subject to change without prior notice
